Expert Workshop

Enabling the Clean Energy Transition with 2nd Generation Biofuels

- ETIP-Bioenergy and the CLARA consortium cordially invite you to participate in the workshop entitled “***Enabling the Clean Energy Transition with 2nd Generation Biofuels***” held on **25th April 2022**.
- The workshop will be organized as a **hybrid event**, featuring speakers from politics, research, and industry. Within the scope of the workshop you will have the chance to learn more about current **endeavors towards carbon neutral and socially viable road transport fuels** synthesized from biomass residues, during dedicated presentations and a panel discussion. Moreover, on-site visitors will have the chance to visit the 1 MW_{th} pilot plant in which the entire process chain from biogenic residue to biofuel is represented.
- Participation is **free of charge**. Details regarding the registration will follow shortly.
